

# Team Rock-Paper-Scissors

OVERVIEW

To cooperate and tag members of the other team.

ENERGY

COMPLEXITY

GROUPING

LOCATION

## Materials

- none

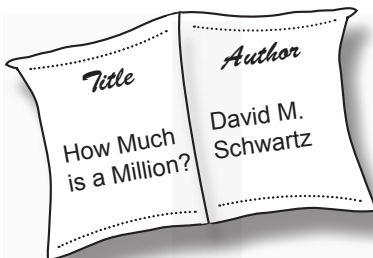

## Preparing

- Divide the group into two teams: the million stars and the million goldfish.
- Review the rules for rock-paper-scissors (rock smashes scissors, paper covers rock, scissors cut paper).
- Designate playing boundaries, and line up each team on opposite sides of the field.

## Doing

- Each team secretly agrees that all members will show one of the three signs.
- Teams walk to the middle of the field.
- With the leader's cue, all players say, "Rock, paper, scissors," and then each team shows its agreed-upon sign.
- The team with the "winning sign" chases the team with the "losing sign" back to their side of the field.
- Tagged players must switch teams.
- After running, both teams gather on their side of the field and agree on their sign for the next round.
- Repeat the process until all players are captured or the time limit is reached.
